→**Proceed to one of the following methods to complete the pie or tart.**

**Press-in crust** (no rolling required): For one-crust pies: Divide the mixture between two, 9-inch pie pans or four small pie tins; press firmly into the bottom of each pan and up the sides, making sure it covers the whole pie pan. Prick the pastry with a fork about 1-inch apart before baking. (This prevents crust from bubbling up). OR, after pressing in pastry, line w/foil and spread dry beans in bottom. Fill or pre-bake crust in preheated oven as recipe directs.

**Country “Rustic” Pie:** Press the dough into a disk, flatten to about 1 ½ -inches thick and wrap with plastic food wrap. Freeze pie pastry 30 minutes or refrigerate 4 hours or overnight before rolling out. Roll into a 12 to 14-inch circle and place on **ungreased** baking sheet pan or oven-safe plate. Place fruit filling in center of crust, dot with butter and pull crust up 2 to 3 inches over the filling, overlapping edges of dough all around the circle. Press gently to keep in place; leave a 4-5-inch center circle open.

**Rolled Pie Crust:** \$\$\$ **TIP:** Have the hardware supply store cut thick (1 1/4-inch) dowel rods into 12-inch lengths; sand ends, wash in soapy water, rinse, dry and oil with butcher block (food) oil.

--Form dough into a disk shape and wrap in plastic wrap.

--Refrigerate 4 hours or overnight OR freeze until firm (about 20-30 minutes)

--Lightly flour the pastry disk; cut in half. Roll the crust into a 12-inch circle.

--**Rolling Tip:** Roll out pastry between two lightly floured waxed pr parchment paper sheets for easier handling.

--Fold or roll the pastry over the rolling pin and gently lay over and down into a 9-inch pie pan. Ease the bottom crust into the pie pan and trim edges.

--Roll out the top crust and make slits in the center before filling the bottom crust; then top with a second circle of pastry. The slits in the center of the top crust are important to let out steam.

--Use a pizza or pastry cutter and cut strips of pastry to weave a lattice top.

### Artist's touch:

- Cut out leaf, flower, heart or other small shapes with cookie cutters and lay on top crust.
- Glaze top crust and shapes with an egg wash→Whisk 1 egg and 1 tablespoon ice water until yellow-colored. Brush egg wash over top crust and shapes, sprinkle with sugar if desired, then bake.
- Add sparkle! Just before putting pie into the oven, brush crust with cream or milk; sprinkle with sugar and bake.

**OVEN TIP:** Bake pies on large baking sheets for easier handling, catching spills. Place oven racks in lower (not bottom) and middle settings to bake two pans of pies; bake ten minutes, switch pans, repeat, for even browning and baking.
